

Current Schedule:

May 10-14, 2010

September 20-24, 2010

Due to increased demand, additional sessions may become available

Train the Trainer

Become a certified trainer in 5 days with the Plexus Trainer/Coach program.

The Train the Trainer program enables individuals with proven competency in their field of interest to become a trainer internally at their organization or as a 3rd party. This is a highly beneficial program for both the individual and their organization.

Benefits

- Become a valuable resource to your organization by enhancing your qualifications to train personnel and lead audit teams
- Learn and utilize the same training methods our Master Trainers use through the industry-known Plexus Learning Model and Plexus training materials
- Your organization can realize enormous cost savings by having the training done by one of their own instead of sending multiple people to open enrollment trainings

Sample Scenario:

Your organization has need of training 5 new internal auditors. Instead of spending thousands of dollars in enrollment fees and travel expenses, they have you, right there to do the training. Just training one course can completely recover the enrollment cost of attending a Train the Trainer. Over time, this results in immense cost savings and efficiency for your organization.

Enrollment Fee

\$2495 (includes full set of trainer guides in your chosen curriculum)

Available Training Curriculums

- After proven knowledge in each area, these are all available for you to train:

ISO 9001:2008

- ISO 9001:2008 Executive Understanding
- Understanding ISO 9001:2008
- ISO 9001:2008 Internal Quality Auditing
- How to Transition to ISO 9001:2008
- ISO 9001:2008 Developing Employee Training
- Value Added Documentation
- Measurement, Data Analysis & Continual Improvement

Core Tools (must have successfully completed all core tools offer through AIAG)

- Implementing APQP and PPAP
- Implementing FMEA Reference Manual
- Implementing SPC Reference Manual
- Implementing MSA Reference Manual
- Applied SPC and MSA for Practitioners
- Implementing SPC and MSA Basics

AGENDA

Day 1

- ❖ Icebreaker
- ❖ Outcomes
- ❖ Purpose of Plexus Training Systems
- ❖ Demonstration of a Plexus course “Mini-Teach”
- ❖ Understanding the Plexus Learning Model and the Plexus Training Approach
- ❖ Assignment of the Plexus Learning Model Activity

Day 2

- ❖ Learning Opportunity Identification
- ❖ Identifying Groups to Train
- ❖ Guided Technical Review
- ❖ Learning Design
- ❖ Double Reverse Activity
- ❖ Learning Model Activity
- ❖ Scenario Development Activity
- ❖ Mini-Teach Assignments
- ❖ Review of Trainer Assessment Tools

Day 3

- ❖ Classroom Training Techniques and Coaching Techniques
- ❖ Mini-Teaches
- ❖ Phase 1 and Phase 2 Assessments

Day 4

- ❖ Structuring/Constructing
- ❖ Mini-Teaches

Day 5

- ❖ Mini-Teaches
- ❖ Phase 3 Assessment
- ❖ Coaching Activity
- ❖ Customization Activity
- ❖ Implementation Activity
- ❖ SWOT Analysis
- ❖ Action Plan Activity
- ❖ Closure
